European University Cyprus

BSc in Business Administration / Thesis : Online Microtransactions

EXPERIENCE

March 2022 - Present

Playtech / Customer Technical Support (L2) | Shift Leader

- Level 1 and 2 support for Playtech's global sportsbook, working in a 24/7 shift environment.
- Diagnose and resolve technical issues by analyzing system logs (Kibana), dashboards (Grafana), and database queries (SQL).
- Monitor system health and performance using tools like PRTG and escalate incidents proactively to ensure service continuity.
- Create and manage tickets using Jira, document resolution paths, and liaise with development teams
- Operate internal back-office applications and database tools to retrieve customer information and support operational tasks.

O3

January 2022 - Present

Freelance Web Development

- Delivered production-grade web apps for multiple clients using React.js, Next.js (App Router), and Tailwind CSS.
- Developed modular, reusable components with TypeScript, Headless UI, and custom hooks, following atomic design principles.
- Integrated and consumed RESTful and third-party APIs; handled authentication flows, form validation, and error handling.
- Applied state management with Zustand and Context API, and optimized performance using lazy loading and dynamic imports.
- Deployed full-stack projects on Vercel, version-controlled with Git, and maintained CI workflows via GitHub Actions.
